She's no dog

The Vancouver Sun, June 18, 2003

Do you think it is a good career move to be a cover girl for a canine publication?

Vancouver's Emmanuelle Vaugier (*40 Days and 40 Nights*) thinks so.

The stunning actress is featured both on the cover and inside the Summer 2003 issue of the local magazine *Modern Dog*, with her beloved poodles, Isabella and Lily.

Best known for her role as Dr. Helen Bryce, Lex Luthor's girlfriend on the Warner Brothers hit drama series *Smallville*, Vaugier was recently voted number 88 in Maxim's top-100-hottest list.

And, as we speak, she's being photographed for three US magazines, including *Self*.

You'll see her next as Princess Jasmine, starring Michael Caine and Robert Duvall in the upcoming comedy *Secondhand Lions*, which goes into limited release on September 26.
