**Vaugier Plays In House Of The Dead**

Emmanuelle Vaugier told SCI FI Wire that she's completed production on *House of the Dead 2: Dead Aim*, a follow-up to Uwe Boll's much-derided *House of the Dead*, which was based on the video game of the same name. "That was fun," Vaugier said in an interview while promoting her latest film, *Saw II*. "We had a good time on that one. [Actor-turned-director] Mike Hurst directed it, and Andy Hurst, his brother, did the second unit."

Vaugier, whose many genre credits include parts on TV's *Smallville*, *Andromeda* and the straight-to-video movie *Wishmaster 3*, added: "I play a special ops officer, and Ed Quinn [*Starship Troopers 2*] plays my partner. We're partnered up after not having worked together for a while. Something's happened, and there are zombies on the loose, and so we've got to go kill them. And that's pretty much it. That's the story in a nutshell. There's a lot more involved than just that, obviously. We are hoping that it's going to be much better than the first one. That won't be hard. We're trying to erase the first one from people's memories." *House of the Dead 2* will be released in 2006.
